[Databooster] Newsbite: Future-Shaping with the Databooster
data innovation office <info.office@data-innovation.org>
Draft

20 November 2023 at 17:36

What's happening in the community? And what does a sandwich have in common with AI? In Zurich, the data science community came together for the Databooster's **Expert Day**, addressing real-world challenges and developing practical solutions.

Keynote speaker **Kyle Alves**, senior lecturer from the University of the West of England, presented the world's first **digitally traceable sandwich**, underlining transparency and traceability through AI in the food industry.

Shaun West and the **Smart Services EG** explored new food and **supply chain tech** to bridge **ESG** (Environmental, Social, Governance) requirements and profitability potential.

Anne Wegmann, Florian Scheidegger, and **Raphael von Thiessen** shed light on Switzerland's intricate **open data** landscape with **geospatial applications**.

Led by D-ONE experts **Heiko Krömer** and **Stepan Gaponiuk**, the participants at the hands-on workshop set up their own cloud **IoT system** with Raspberry Pi microcontrollers.

Woven through the whole the day were fundamental discussions on the **data ethics** and **sustainability** of these topics, lead by **Philipp Schmid** and **Andrea Dunbar (CSEM)** of the **Machine Learning EG** and **Ricardo Chavarriaga (ZHAW, Databooster Responsible AI).**

Find out more about the Expert Day in our blog post.

Upcoming Databooster workshops and events:

- Thurs, 28 September: Digital Days Aarau: Business focus day on data management and AI, learn from others' fail-stories and network at the apéro. Free registration options for afternoon-only, evening-only, or full-day program

- Mon, 2. October: BFH meets Practice: Shaping workshop with multiple cross-industry parties on innovative digital onboarding practices for SMEs. Register directly at sabrina.schell@bfh.ch.

- Wed 18. - Fri 20. October: Resiliente Smart Service Systeme: Ideation workshop, for the first time over 2.5 days with three partnering companies, jointly organized with Mobiliar Forum Thun. Thank you Mobiliar for supporting this Databooster Workshop.

- Mon 25. - Tues 26. October: Smart Data Forum: Focus on "smart maintenance and resilience," exploring how to radically improve resource planning for dynamic operational robustness. Register via the trade fairs' websites: Pump & Valves: Link, Maintenance: Link

- Fri 27. October: Smart Service Summit: How the design of resource integration builds emerging AI ecosystems for business resilience

So, what is the community up to? It's thriving together: Our event format continues to garner exceptional enthusiasm and open-minded participants, eager to connect and collaborate. Stay tuned for upcoming events on our webpage and social media (Twitter, Linkedin)
